

Electro-Static Discharge (ESD)

1.0 Definition of terms:

1.0.1 The term “shall”, “will” and “may” are used with specific intent thought-out these documents and will observe the following rules:

- 1.1** Requirements defined using “**shall**” in the text are mandatory requirements and are considered to be binding and require formal verification. Departure from such a requirement is not permissible without formal agreement between Subcontractor and CSPI.
- 1.2** Requirements defined using “**will**” in the text expresses a provision or service by CSPI or an intention by CSPI in connection with a requirement of this document. The subcontractor is implicitly authorized to rely on such service or intention.
- 1.3** The word “**may**” in the text expresses a permissible practice or action. It does not express a requirement of this document.

2.0 Electro-Static Discharge (ESD)

2.0.1 The Subcontractor shall have an ESD control program that meets the intent of MIL-STD-1686C (or ANSI/EIA 625-1994) and MIL-HDBK-263.

This document is an integral part of the purchase order. The revision in effect at the time the purchase order was placed applies.
