

IP Configuration question on the local network interface order?

Model:

ARC Series C Board (10G-PCIE2-8C2-2S) and ARC Series B Board (10G-PCIE2-8B-2S)

Software Release:

MVA Software Release 1.3.0

Operating System:

Linux, Centos 8.x and RHEL 8.x

Information:

Question: Just to verify, the IP address of the local interface is in network order, but the GVSP data port is in host order when calling `mva_open_stream`, right?

Answer: Yes, that is correct on the host ordering sequence.
